

Dear Colleague,

As the Institutional Coordinator of the International Relations Office at Trabzon University (TR TRABZON04) in Trabzon, Türkiye.

Trabzon University was established in 2018 after splitting from Karadeniz Technical University, which is the oldest and largest one in the Black Sea region. Trabzon University is one of the universities in Türkiye that has a Diploma Supplement and ECTS Label. Having a strong background in social sciences with six faculties, one conservatory, and one graduate school, we have more than 12,000 Turkish and international students. The course catalog of Trabzon University is available at the link following: https://erasmus.trabzon.edu.tr/Files/ckFiles/erasmus-ofinaf-trabzon-edu-tr/gerekli%20belgeler/Katalog/Erasmus_Course_Catalog.pdf. Furthermore, we have more than 1500 academic, administrative, and technical staff. We have the fruitful experience of successfully carrying out the Erasmus+ Programmes. As a growing and developing university, we offer degrees from associate to bachelor's, and master's to doctorate levels in various programs. We also offer Erasmus+ Program internship opportunities, in our International Office and our administrative and academic units.

Having scrutinized your valuable historical and academic background, we have found remarkable similarities regarding the course content and campus facilities.

Could we possibly urge you to consider us a candidate for strong academic cooperation that would include not only students and staff exchange under the Erasmus+ Programme but also other more advanced activities such as double and/or joint degrees which we have been undertaking with some of our partner institutions. Undoubtedly, there may be an initial stage, and perhaps staff exchange would be the most prominent phase to do it. Thus, we would like to invite you first to study our web page to decide whether such an offer has a vigorous stand on your side, and if so, to come and visit us as our guest to see the facilities and the environment. We assure you that your visit will be highly fruitful and unforgettable. We could then talk about your thoughts and proceed to the agreement with student mobility.

Looking forward to hearing from you.

Kind regards,
